

LIQUID OXYGEN PLUS

11.9% Hydrogen Peroxide H_2O_2

✓ Adding Fresh Oxygen
 ✓ Killing Pathogens

GREEN JEWEL LIQUID OXYGEN PLUS well-known cleansing and oxygenating agent for hydroponic systems.

GREEN JEWEL LIQUID OXYGEN PLUS contains hydrogen peroxide (H_2O_2) which is a highly unstable molecule. It will quickly break down in the nutrient tank releasing a free atom of oxygen. This oxygen atom is extremely reactive and will attach itself to either another atom, forming a stable oxygen molecule, or attack a nearby organic molecule, such as a virus or fungal spore.

GREEN JEWEL LIQUID OXYGEN PLUS helps encourage healthy root growth because of the extra oxygen molecule. Oxygen can help plant roots absorb nutrients from the soil.

Therefore, this extra bit of oxygen better enables the roots to absorb more nutrients, which means faster, healthier, and more vigorous growth.

GREEN JEWEL LIQUID OXYGEN PLUS prevents unwanted bacteria & fungi that may be lurking in the garden.
